

BGR EQUIPMENT HIRE PTY LTD

CAPABILITY STATEMENT

KEEPING YOUR PROJECTS MOVING

A wide-angle photograph of a desert landscape at sunset. The sun is low on the horizon, casting a warm, golden glow over the scene. The foreground is filled with dry, yellowish-brown grass and shrubs. In the distance, there are low, rolling hills and mountains under a clear sky.

ACKNOWLEDGEMENT OF COUNTRY

BGR Equipment Hire acknowledges the traditional and continuing owners of the lands and waters of Australia and pays its respect to Elders, past and present. We honour the wisdom, cultural richness, diversity, and resilience of all First Nations people and cultures.

OVERVIEW

BGR Equipment Hire is a locally owned and operated company located in the South West. BGR Equipment Hire provides many services which include civil road construction, earthmoving, heavy duty mechanical repairs, extraction and cartage of raw materials, fire mitigation and suppliers of hydraulic hosing.

BGR Equipment Hire has expertise in many areas and as such we are a unique company that can meet the many needs of our varying clients.

Our dedication to providing quality service is evident in all of our projects. We aim to get in, get the job done and exceed expectations.

BGR Equipment Hire has experience with the following:

- **Earthmoving** – house and shed pads, road construction, dam construction and clean-outs, land clearing/forestry thinning
- **Civil Construction** – roading, drainage, culverts, annex pads, trenches, guard railing installation.
- **Material** – extraction and cartage of sand, gravel, shale, road base and timber
- **Mechanical Repairs**– accredited vehicle licence repairer. Heavy duty diesel and hydraulics
- **Fire Mitigation** – prevention and suppression of forest fuel including; slashing, mulching and creating and maintaining firebreaks
- **Hydraulic Hosing** – Retail outlet for 1800 Hose Van

KEY PERSONNEL

Bradley Linthorne and Gavin Gandy are the working directors of BGR Equipment Hire. They worked in the timber industry for 10 years each before they moved into the mining and exploration sector for 3 years. During this time they have developed a unique set of skills and expertise between them that have led to the beginning of their own company.

Since beginning the company in 2018, it has quickly grown and adapted to meet the needs of their clients. BGR are proud to currently employ 14 dedicated staff members. BGR Equipment strive to ensure they are meeting their staff needs and provide them with the training and on-job experience required to provide excellent services for their customers.

BGR Equipment Hire commit themselves to providing an effective and safe work environment for all their employees. They ensure that their management systems comply with Federal and State regulations and we hold WA Heavy Vehicle Accreditation.

KEY PERSONNEL

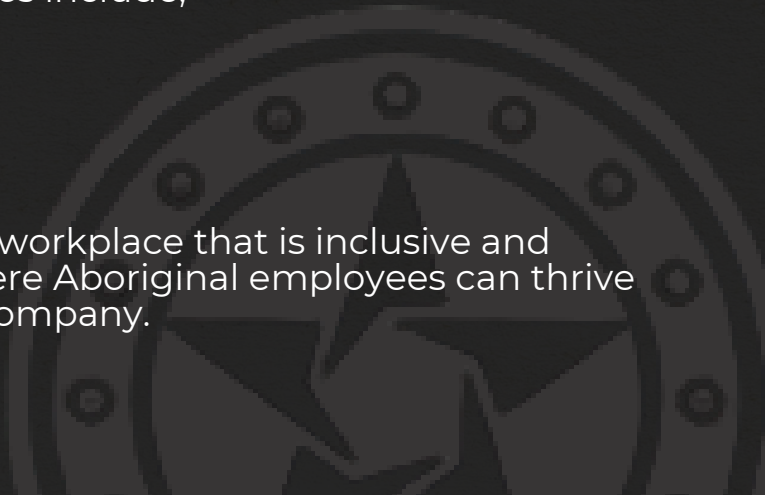

BGR Equipment is committed to fostering diversity and inclusion within our workforce, and as part of this commitment, we have successfully employed four Indigenous employees. We recognise the value that Indigenous perspectives bring to our organisation, and we are dedicated to providing these employees with a supportive and empowering work environment. To ensure their success, BGR offers tailored upskilling programs that focus on both technical and leadership development, helping to build their capabilities and career growth. Additionally, we provide ongoing mentorship and access to resources that align with our staff's unique strengths and career aspirations. Moving forward, BGR Equipment intends to continue expanding employment opportunities for Indigenous people, creating pathways for long-term success and contributing to a more inclusive and sustainable workforce.

We liaise closely with Cape Training, a company that works closely with an Aboriginal partner company and provides nationally recognised accreditation and traineeships to all of our employees, indigenous and non-indigenous. These training programs aim to empower individual skills, helping to close skills gaps and support long-term career development. Cape Training has been a great asset to us as they have been very flexible and cater to every individual's training needs.

Just recently we have worked with some major clients in the Pilbara region and outside of the Metro area. These companies include;

- Yirdiya
- Garli
- Yurra
- Maali

Through these efforts, we aim to create a workplace that is inclusive and supportive, fostering an environment where Aboriginal employees can thrive while contributing to the success of our company.

OUR EXPERTISE

BGR Equipment Hire is unique in the fact that we offer many services. As such, we are able to meet our client needs. We regularly work with sub-contractors and have close associations with other machinery hire companies. No matter the equipment or expertise you require, we will aim to source it for you.

We currently work closely with Wardong Plant Hire and Cape Training and Assessors who are local south-west companies. We liaise closely with these companies to hire machinery and ensure our staff are fully trained in the relevant certificates.
